

Using open-source or enterprise MongoDB binaries?
You can orchestrate and manage your replicated or
sharded MongoDB clusters in on-prem and cloud
environments with ClusterControl.

Versions: 4.4, 5.0, 6.0, 7.0, 8.0

Distributions: Community, Percona Server, MongoDB Enterprise

MongoDB on ClusterControl gives you

- ✓ Automatic deployment automation of replicaset or sharded clusters
- ✓ Security and compliance features such as TLS encryption, audit logging and more
- ✓ On-prem, cloud, and hybrid cluster management via true single pane of glass
- ✓ Editable configuration files mediated by our configuration files management panel
- ✓ Scale out by adding replicas or convert a replicaset cluster into a sharded cluster
- ✓ Performance ops monitoring with specific dashboards for MongoDB metrics

“ClusterControl enabled us to build automation around the platform for self-service provision while being able to determine the patterns of deployments consistently without DBA involvement.”

Kevin Naik, Head of Databases, ABSA
